

**NEW!**

**1-YEAR RETENTION FOR SPANNING BACKUP**

**Reduce OpEx and streamline compliance with Spanning Backup 1-year retention**

Now you can protect your Microsoft 365 or Google Workspace data for an unbeatable price with 1-year retention licensing. 1-year cloud retention is ideal for many types of regulatory requirements and can help you achieve compliance and SLAs, all while maximizing your budget impact. Also, with Spanning Backup you can easily customize policies based on your needs, such as 1 year for documents and 90 days for email.

This new option is built for SMB customers with direct licensing, not for MSPs. But MSPs can still benefit from volume discounting and set retention limits per tenant and data type—contact us for more information.

**1-YEAR RETENTION OFFER DETAILS**

Get started now to take advantage of our lowest-ever pricing for 1-year retention. Prices are rising soon.

- Unlimited and 1-year licenses cannot be mixed and matched
- Retention policies are set globally for a tenant / environment, and can then be further customized by data type. Retention policies cannot be customized on an individual user level.

 **Microsoft 365**  

- Minimum of 25 users
- Not available for MSPs

1-year retention isn't right for your organization? No problem. Licenses with unlimited cloud retention are still available at an affordable price.
